**TEXAS FACILITIES COMMISSION  
REQUEST FOR QUALIFICATIONS FOR  
INDEFINITE DELIVERY INDEFINITE QUANTITY (IDIQ)  
ENVIRONMENTAL ENGINEERING  
PROFESSIONAL SERVICES**

**SECTION I  
GENERAL**

1. **SCOPE:** In accordance with the provisions of Texas Government Code (TGC), §2254, Subchapter A, Professional Services, and Rules and Procedures adopted by the Texas Facilities Commission (TFC), and in order to provide timely and cost effective design and other specialized services, TFC solicits through this Request for Qualifications (RFQ), Prime Professional Service Providers (PSPs) for Indefinite Delivery Indefinite Quantity (IDIQ) Environmental Engineering services. The initial IDIQ agreements will have no monetary value and because of the indefinite nature of the need for services, there is no guarantee of project assignment to the PSPs selected. Award of an IDIQ agreement or subsequent assignment under an IDIQ contract will not disqualify a PSP from responding to any future TFC project for which a project-specific RFQ may be issued. TFC anticipates award to multiple firms.
2. **DATE OF SERVICES:** IDIQ contract agreements will be valid until 8/31/2019, and will be subject to a single extension of two years upon the mutual agreement of TFC and the PSP. Project-specific assignments may be awarded within the time frame during which the IDIQ contract agreement is valid. To remain valid, all qualifications must be updated by the PSP to reflect any significant changes in the PSP's ownership, structure or method of operation, or when requested by TFC. Duration of the contract agreement for each assignment will be negotiated and documented in the PSP contract for each project-specific assignment.

This contract agreement is contingent upon the continued availability of funding. If funds become unavailable through lack of appropriations, legislative budget cuts, amendment of the Appropriations Act, state agency consolidations, or any other disruption of current appropriations, provisions of the Termination Article in the IDIQ Professional Services Contract Agreement shall apply.

3. **DEFINITIONS:**

Addendum: A modification of the specifications issued by TFC.

Good Faith Effort: Effort required by vendors when completing the HUB Subcontracting Plan, which demonstrates the respondent has completed one of the following methods for the planned subcontracting needs: A) Using strictly HUBs for all subcontracting needs, B) Meeting stated agency goal for HUB subcontracted needs using both HUB and Non-HUB vendors, C) Performing "Traditional Good Faith Effort" of notifying two minority/women trade organizations and soliciting bids from three HUBs for each subcontracting opportunity, and allowing seven business days for response, D) Self-Performing Contract (performing all work with own materials and labor), or E) Utilizing a Mentor Protégé relationship (a formal agreement that is recognized by the State of Texas Comptroller of Public Accounts. For listing of Mentor Protégé relationship click on link [http://esbd.cpa.state.tx.us/hubmenpro/menpro\\_pairs.cfm](http://esbd.cpa.state.tx.us/hubmenpro/menpro_pairs.cfm)

HUB Subcontracting Plan (HSP): The Historically Underutilized Business (HUB) Subcontracting Plan (HSP) required by Chapter 2161 of the TGC and by Title 34, Chapter 20, Subchapter B, §20.10- §20.28 of the Texas Administrative Code (TAC).

HUB – A business who certified with the Comptroller of Public Accounts by meeting the following requirements: 51% owned by an Asian Pacific American, Black American, Hispanic American, Native American, American woman, and/or United States Veteran with a minimum 20% Disability rating; is an entity with its principal place of business in Texas; and has an owner residing in Texas with a

proportionate interest that actively participates in the control, operations and management of the entity's affairs.

Owner: The Texas Facilities Commission.

## **SECTION II** **DESCRIPTION OF SERVICES**

The majority of the professional services needs are located in Austin for a variety of building/occupancy types. Minimal professional services may be needed across the State of Texas. Specific projects are likely to be identified with scopes that are predominately: 1) Renovations; 2) Alterations; 3) Building System Improvements; 4) Texas Accessibility Standards (TAS) Compliance; and 5) Building Code Compliance. Each project will be assigned to a PSP which will provide the required professional disciplines with its own forces or qualified professionals subcontracted to the PSP. It is anticipated that most IDIQ assignments will be of a value less than \$100,000. Specific projects are likely to be identified with requirements for Phase 1 and Phase 2 Environmental Site Assessments and existing facility surveys and abatement/remediation specifications for hazardous material, and indoor air quality assessments. PSP selected will meet the requirements below in order to be included on a list of professional providers that may be chosen to provide surveys, analysis, reports, recommendations, preliminary construction costs and time schedule estimates, contract administration, sampling, lab analysis, monitoring, detailed on-site inspection/observation and project studies on projects as related to hazardous materials assessment, ~~mediation~~ **remediation**, and abatement.

## **SECTION III** **INDEFINITE QUANTITY OF SERVICES**

The size and quantity of a project assigned to the successful PSP will vary depending on project need, schedule, PSPs work load, and availability of funding. It is anticipated that multiple PSPs will be contracted to provide professional services; however, there is no guarantee of the award of any assignments. Project specific assignments will be made to PSPs identified as most qualified with IDIQ contracts as the need occurs based on the PSP's respective area of expertise experience and ability to support the project with proper staffing in the geographic area of the project. The total value of the IDIQ contract is capped at \$250,000 for each term of the agreement. Failure of PSP to adequately perform contracted services for TFC will be cause for termination. Initiation of projects is based on need and funding. Project size and quantity have not been defined. Each PSP with an IDIQ contract may have a different volume or number of project-specific assignments, if any, since need and available funding may vary.
