The building will be located on the site of the John H. Winters campus at 701 W 51st street, in Austin, Texas; specifically: directly south of the existing John H. Winters Building C. The street address of the North Austin Complex Phase 1 Building Project is 4601 West Guadalupe Street, Austin, Texas, 78751.

2.2. Statement of Work.

2.2.1. Contractor shall provide the equipment, tools, materials, labor, insurance, transportation and delivery services necessary to fabricate or procure, deliver, and install certain systems furniture at the North Austin Complex Phase 1 Building Project described in Section 2.1.1, above. Electric current, heat/air, and elevator service will be furnished without charge to Contractor staff while at the installation site. Adequate facilities for offloading, staging, moving and handling of product shall be provided.

2.2.2. The furniture for the building will be installed in stages, by floor. It is anticipated that the first delivery to be installed will be for Level 2 of the building available the third quarter

of calendar year 2020, and then working up to Level 9 on a schedule provided by the CMR and coordinated with the Furniture Planner. Furniture must be tagged with respective room numbers and shipped according to CMR's schedule. Contractor-submitted pricing is based on building rules and regulations as described in the RFP package. Where RFP descriptions are not explicit, an assumption of standard building conditions was used to calculate handling and installation costs. Pricing includes delivery during normal business hours unless otherwise explicitly described in the RFP documentation. Delivery of product will be consolidated for efficiency at the discretion of the Contractor and subject to coordination with the TFC Project Manager and the CMR. Installation services will be performed during normal working hours unless otherwise stipulated in the RFP documentation.

2.2.2.2. Additional Installation and Job Site Clarifications:

2.2.2.2.1. All private offices require wall blocking prior to installation of affixed/wall-mounted overheads. Additional charges may result for overhead, wall-mounted product being affixed to walls without wall blocking.

2.2.2.2.2. Contractor agrees to provide floor/wall protection as stated in RFP when delivering furniture

2.2.2.3. Product delivery and installation costs are calculated based on an understanding that product will be delivered directly from manufacturer to installation site with dock access available at the installation site sufficient to accommodate 53' trailers.

2.2.2.4. If delays arise at the installation site for any reason other than those within the control of Contractor and these delays require diversion and/or delay of product deliveries and installation, additional charges for product storage and product handling will accrue to TFC.

2.2.2.5. Contractor will provide a schedule to communicate last dates for changes to shipment and product delivery dates per Stage. After this deadline, additional costs will be incurred by TFC if changes are made to product delivery dates (per Stage) outside of the schedule provided. Additional charges would include, but may not be limited to, storage of product, redirecting of product deliveries and/or double handling of product. If TFC requests additional performance outside of original scope, or beyond the parameters described hereto, additional charges may apply.

2.2.2.6. Contractor pricing does not include any stair carry unless explicitly stated in the RFP documentation.

2.2.3. Contractor shall be responsible for examining all facilities in which the work will take place and to be familiar with the conditions under which the work will be accomplished. Failure of the Project Manager during the progress of the Contract, to: (i.) discover or reject unacceptable work; (ii.) discover work not in accordance with the Contract; or, (iii.) failure to exercise any remedies in connection therewith, shall not be deemed an acceptance thereof, nor a waiver, of TFC's right to full performance of the contract.

Further, Contractor shall engage any additional outside services which may be necessary to facilitate repairs until services and facilities are restored. All costs involved in making repairs and restoring disrupted services and facilities shall be borne by Contractor, and Contractor shall be fully responsible for any and all claims resulting from the damage. The Project Manager may elect to perform such repairs and deduct the cost of such repairs, replacements, and outside services from amounts due to Contractor.

If the space provided is on another floor, the extra costs of double-handling and/or transporting to and from storage will be reimbursed by the TFC. If the merchandise must be moved due to progress of other trades or other reasons, the extra cost of such moving stored/staged product will be the responsibility of the TFC.

TFC shall approve all subcontractors. Subcontractors providing service under this Contract shall meet the same requirements and level of experience as required of the Contractor. No subcontract under the Contract shall relieve Contractor of responsibility for the service. If Contractor uses a subcontractor for any or all of the work required, the following conditions shall apply under the listed circumstances:

11.1.2.1. Contractors planning to subcontract all or a portion of the work to be performed under this Contract shall identify the proposed subcontractor on Exhibit C-1 –HUB Subcontracting Plan [Form], as further described in Section 11.2 below.

A copy of Exhibit C - Initial Approved HUB Subcontracting Plan ("HSP") is attached hereto and incorporated herein for all purposes. If Contractor subcontracts with others for some or all of the services to be performed under this

Contract, Contractor shall comply with all HUB requirements pursuant to Texas Government Code, Chapter 2161 as described in Exhibit D – HUB Subcontracting Plan [Form], attached hereto and incorporated herein for all purposes. When required, Contractor shall submit an updated HSP. In addition to information required by Section 11.1 above, Contractor shall provide TFC with pertinent details of any participation by a HUB in fulfilling the duties and obligations arising hereunder on Exhibit E – HSP Progress Assessment Report [Form] (“PAR”), attached hereto and incorporated herein for all purposes. PARs shall be submitted monthly with each invoice and are a condition of payment.

11.2.1. Requirement to Utilize HUB Compliance Reporting System. Pursuant to Texas Administrative Code, Title 34 §§ 20.85 (f) (1) (2) and 20.287 (b), TFC administers monthly HSP review to include PAR compliance monitoring through a HUB Compliance Reporting System known as B2G. Contractor and Contractor’s Subcontractors must submit required PAR information into the B2G system as a condition of payment. Contractor shall indemnify, save and hold harmless the State of Texas from and against claims of patent, trademark, copyright, trade secret or other proprietary rights, violations or infringements arising from the State’s or Contractor’s use of or acquisition of any services or other items provided to the State of Texas by Contractor or otherwise to which the State of Texas has access as a result of Contractor’s performance under this Contract, provided that the State shall notify Contractor of any such claim within a reasonable time of the State’s receiving notice of any such claim. If Contractor is notified of any claim subject to this section, Contractor shall notify TFC of such claim within five (5) business days of such notice. No settlement of any such claim shall be made by Contractor without TFC’s prior written approval. Contractor shall reimburse the State of Texas for any claims, damages, losses, costs, expenses, judgments or any other amounts, including, but not limited to, attorneys’ fees and court costs, arising from any such claim. Contractor shall pay all reasonable costs of the State’s counsel and shall also pay costs of multiple counsel, if required to avoid conflicts of interest. Rev. 2/17

HUB Subcontracting Plan (HSP)

In accordance with Texas Gov't Code §2161.252, the contracting agency has determined that subcontracting opportunities are probable under this contract. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit this State of Texas HUB Subcontracting Plan (HSP) with their response to the bid requisition (solicitation).

NOTE: Responses that do not include a completed HSP shall be rejected pursuant to Texas Gov't Code §2161.252(b).

The HUB Program promotes equal business opportunities for economically disadvantaged persons to contract with the State of Texas in accordance with the goals specified in the 2009 State of Texas Disparity Study. The statewide HUB goals defined in 34 Texas Administrative Code (TAC) §20.284 are:

- **11.2 percent for heavy construction other than building contracts,**
- **21.1 percent for all building construction, including general contractors and operative builders' contracts,**
- **32.9 percent for all special trade construction contracts,**
- **23.7 percent for professional services contracts,**
- **26.0 percent for all other services contracts, and**
- **21.1 percent for commodities contracts.**

- - Agency Special Instructions/Additional Requirements - -

*In accordance with 34 TAC §20.285(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. When a respondent uses this method to demonstrate good faith effort, the respondent must identify the HUBs with which it will subcontract. If using existing contracts with Texas certified HUBs to satisfy this requirement, only the aggregate percentage of the contracts expected to be subcontracted to HUBs with which the respondent **does not** have a **continuous contract*** in place for **more than five (5) years** shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor rotation as recommended by the 2009 Texas Disparity Study.*

SECTION 2: RESPONDENT'S SUBCONTRACTING INTENTIONS

After dividing the contract work into reasonable lots or portions to the extent consistent with prudent industry practices, and taking into consideration the scope of work to be performed under the proposed contract, including all potential subcontracting opportunities, the respondent must determine what portions of work, including **contracted staffing, goods and services will be subcontracted**. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. SECTION 4: AFFIRMATION

As evidenced by my signature below, I affirm that I am an authorized representative of the respondent listed in SECTION 1, and that the information and supporting documentation submitted with the HSP is true and correct. Respondent understands and agrees that, if awarded any portion of the requisition:

- The respondent will provide notice as soon as practical to all the subcontractors (HUBs and Non-HUBs) of their selection as a subcontractor for the awarded contract. The notice must specify at a minimum the contracting agency's name and its point of contact for the contract, the contract award number, the subcontracting opportunity they (the subcontractor) will perform, the approximate dollar value of the subcontracting opportunity and the expected percentage of the total contract that the subcontracting opportunity represents. A copy of the notice required by this section must also be provided to the contracting agency's point of contact for the contract no later than ten (10) working days after the contract is awarded.
- The respondent must submit monthly compliance reports (Prime Contractor Progress Assessment Report – PAR) to the contracting agency, verifying its compliance with the HSP, including the use of and expenditures made to its subcontractors (HUBs and Non-HUBs). (The PAR is available at <https://www.comptroller.texas.gov/purchasing/docs/hub-forms/ProgressAssessmentReportForm.xls>).

The respondent must seek approval from the contracting agency prior to making any modifications to its HSP, including the hiring of additional or different subcontractors and the termination of a subcontractor the respondent identified in its HSP. If the HSP is modified without the contracting agency's prior approval, respondent may be subject to any and all enforcement remedies available under the contract or otherwise available by law, up to and including debarment from all state contracting.

The respondent must, upon request, allow the contracting agency to perform on-site reviews of the company's headquarters and/or work-site where services are being performed and must provide documentation regarding staffing and other resources.

The state agency I have identified below in Section B has determined that subcontracting opportunities are probable under the requisition to which my company will be responding.

34 Texas Administrative Code, §20.285 requires all respondents (prime contractors) bidding on the contract to provide notice of each of their subcontracting opportunities to at least three (3) Texas certified HUBs (who work within the respective industry applicable to the subcontracting opportunity), and allow the HUBs at least seven (7) working days to respond to the notice prior to the respondent submitting its bid response to the contracting agency. In addition, at least seven (7) working days prior to submitting its bid response to the contracting agency, the respondent must provide notice of each of its subcontracting opportunities to two (2) or more trade organizations or development centers (in Texas) that serves members of groups (i.e., Asian Pacific American, Black American, Hispanic American, Native American, Woman, Service Disabled Veteran) identified in Texas Administrative Code §20.282(19)(C).

We respectfully request that vendors interested in bidding on the subcontracting opportunity scope of work identified in Section C, Item 2, reply no later than the date and time identified in Section C, Item 1. Submit your response to the point-of-contact referenced in Section A.

***Continuous Contract:** Any existing written agreement (including any renewals that are exercised) between a prime contractor and a HUB vendor, where the HUB vendor provides the prime contractor with goods or service, to include under the same contract for a specified period of time. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.

HUB Subcontracting Plan (HSP)

In accordance with Texas Gov't Code §2161.252, the contracting agency has determined that subcontracting opportunities are probable under this contract. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit this State of Texas HUB Subcontracting Plan (HSP) with their response to the bid requisition (solicitation).

NOTE: Responses that do not include a completed HSP shall be rejected pursuant to Texas Gov't Code §2161.252(b).

The HUB Program promotes equal business opportunities for economically disadvantaged persons to contract with the State of Texas in accordance with the goals specified in the 2009 State of Texas Disparity Study. The statewide HUB goals defined in 34 Texas Administrative Code (TAC) §20.284 are:

- **11.2 percent for heavy construction other than building contracts,**
- **21.1 percent for all building construction, including general contractors and operative builders' contracts,**
- **32.9 percent for all special trade construction contracts,**
- **23.7 percent for professional services contracts,**
- **26.0 percent for all other services contracts, and**
- **21.1 percent for commodities contracts.**

- - Agency Special Instructions/Additional Requirements - -

In accordance with 34 TAC §20.285(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. When a respondent uses this method to demonstrate good faith effort, the respondent must identify the HUBs with which it will subcontract. If using existing contracts with Texas certified HUBs to satisfy this requirement, only the aggregate certified percentage of the contracts expected to be subcontracted to HUBs with which the respondent does not have a continuous contract in place for more than five (5) years shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor rotation as recommended by the 2009 Texas Disparity Study.*

In accordance with Texas Gov't Code, Chapter 2161, each state agency that considers entering into a contract with an expected value of \$100,000 or more shall, before the agency solicits bids, proposals, offers, or other applicable expressions of interest, determine whether subcontracting opportunities are probable under the contract. 34 Texas Administrative Code, §20.285 requires all respondents (prime contractors) bidding on the contract to provide notice of each of their subcontracting opportunities to at least three (3) Texas certified HUBs (who work within the respective industry applicable to the subcontracting opportunity), and allow the HUBs at least seven (7) working days to respond to the notice prior to the respondent submitting its bid response to the contracting agency. In addition, at least seven (7) working days prior to submitting its bid response to the contracting agency, the respondent must provide notice of each of its subcontracting opportunities to two (2) or more trade organizations or development centers (in Texas) that serves members of groups (i.e., Asian Pacific American, Black American, Hispanic American, Native American, Woman, Service Disabled Veteran) identified in Texas Administrative Code §20.282(19)(C).

We respectfully request that vendors interested in bidding on the subcontracting opportunity scope of work identified in **Section C, Item 2**, reply no later than the date and time identified in **Section C, Item 1**. Submit your response to the point-of-contact referenced in **Section A**.
