**SERVICE CLASSES AND REQUIREMENTS**

## EXHIBIT C

### SERVICE CLASSES AND REQUIREMENTS

#### I. SERVICE CLASSES AND REQUIREMENTS.

A. This Contract contains **seven (7) classes of service**, setting forth the service schedule to be followed by the Contractor; including the custodial requirements for building area types. **These service classes and requirements are standard for all buildings and shall be followed by the Contractor unless a variance for a specific task, building or area type is included in contract Attachment G – Building List.**

B. All tasks listed below are required to be accomplished as “Day Custodial” tasks (see requirements for Day Custodial Program in contract paragraph 1.01) unless specifically noted in Attachment G – Building List; or as agreed to by contractor and owner, prior to services being performed.

C. For weeks with holidays or closures, tasks that are required to be completed twice, or three times weekly will still be accomplished if there is only one closure day per week. If more than one closure day per week occurs – task schedule will be reduced as directed by Contract Administrator.

1. DAILY TASKS are services that are performed every weekday, except for holidays listed in contract Attachment F – State Holiday Schedule.
2. THREE TIMES WEEKLY TASKS are services that are performed at a minimum of three (3) times a week, every week.
3. TWICE WEEKLY TASKS are services that are performed at a minimum of twice a week, every week.
4. WEEKLY TASKS are services that are performed at a minimum of once a week, every week.
5. TWICE MONTHLY TASKS are services that are performed at a minimum of twice a month, every month.
6. MONTHLY TASKS are services that are performed at a minimum of once a month, every month.
7. ANNUAL TASKS are services that are performed at a minimum of once a year during each year of the Contract, and will be accomplished as per Attachment H - Scopes and as per the requirements of Section III below.

#### II. BUILDING AREA DESCRIPTIONS:

A. Public Areas are defined as **ground-level entry areas, foyers & lobbies** (may be two “ground level” areas on buildings with multiple level entrances); **main corridors & lobbies** on lower floors and upper floors – typically near elevator landings, and extending from elevators towards office work areas. Main corridors included in this category are typically 4-6 feet wide or more and are the main transit routes for both employees and visitors. **Elevators and elevator lobbies (all floors)** are included in this category, as they are common areas utilized by all building employees and visitors. **Cafeterias and break rooms** that are located within these same areas of the building, which see a high degree of visitor traffic, are also considered public areas. Break rooms that are located fully within employee office areas, and are intended solely for use by the employees in that office area, are not considered public areas. Public areas also include those **large meeting rooms/public hearing rooms** that are designed or designated for large meetings of over 100 people or more, most frequently found on ground levels, and which frequently host meetings that are open to the public or large visitor groups. (Minor Hallways that extend off the main corridors into office work areas are **NOT included** in this category, as they typically do not receive substantial visitor traffic, and are primarily used by building employees – these spaces are included below in Office Areas.)

*Note: Elevators, Cafeterias and Break Rooms each have their own specific categories for additional clarification of tasks.*

**B. Office Areas** are defined as offices (typically constructed with hard walls and locking doors), modular/cubicle workstations, computer rooms, conference rooms, library stacks, work rooms, employee lounges and break rooms, meeting rooms, study rooms and classrooms. This category covers all areas where employees typically work and meet, but receive minimal visitor traffic. This category also includes those *minor hallways* that connect interior work areas. These are most often found inside “office suites”, and connect areas within the suite. (Note: Although individual offices & individual workstations are included in this category, they may have slightly different specific requirements than the other more common areas in this category – which will be noted specifically in the scope of work requirements.)

*Note: Additional clarification of tasks is included in this section for those informal and formal Break Rooms located with Office Area suites.*

**C. Utility Areas** are defined as general work areas, shipping/receiving areas, mailrooms, file rooms, record rooms, supply rooms, active storage rooms and loading dock areas. These areas typically do not see visitor traffic, and are typically utilized by employees for work requiring substantial activity. These areas typically see a great deal of “wear & tear” and are *not intended* to receive the same level of service as the public or office areas due to the limited uses of these spaces, or the utility use of these spaces which would preclude higher finish levels.

**D. Restrooms** are defined as restrooms on any floor/level for employee or visitor use. This category also includes those buildings equipped with locker rooms – which shall receive the same schedule and scope of work as standard restrooms.

**III. ANNUALLY SCHEDULED REQUIREMENTS.** Contractor shall submit a draft schedule for all annual floor work projects, or similar required projects, to the TFC Contract Administrator – which is specific as to date and time such requirements are proposed to be performed. The TFC Contract Administrator will discuss with tenant organizations to ensure it meets their needs, and provide Contractor with any changes prior to the start of the project. Contractor shall not initiate these work projects without prior approval of final schedule. Contractor shall send written notice, by fax or email, to the TFC Contract Administrator within twenty-four (24) hours of completion of a project.

**IV. SCHEDULE VARIANCES.** The frequency of the Tasks defined in this section may be increased for a period of time if Contractor continually fails inspections. Frequency changes to the schedules set forth in this section must be approved by the TFC Contract Administrator.

Criminal background checks must be performed by the Texas Department of Public Safety ("DPS") and must be on the form provide by TFC.

**I. CRIMINAL HISTORY CRITERIA**

Employers should use the following criminal history criteria when hiring employees to perform work for TFC. Any employee failing to meet the minimum standard will be denied. If special circumstances exist, please contact the TFC representative for clarification or further consideration.

**\*Continuous Contract:** Any existing written agreement (including any renewals that are exercised) between a prime contractor and a HUB vendor, where the HUB vendor provides the prime contractor with goods or service, to include under the same contract for a specified period of time. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.

# HUB Subcontracting Plan (HSP)

In accordance with Texas Gov't Code §2161.252, the contracting agency has determined that subcontracting opportunities are probable under this contract. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit this State of Texas HUB Subcontracting Plan (HSP) with their response to the bid requisition (solicitation).

**NOTE: Responses that do not include a completed HSP shall be rejected pursuant to Texas Gov't Code §2161.252(b).**

The HUB Program promotes equal business opportunities for economically disadvantaged persons to contract with the State of Texas in accordance with the goals specified in the 2009 State of Texas Disparity Study. The statewide HUB goals defined in 34 Texas Administrative Code (TAC) §20.284 are:

- 11.2 percent for heavy construction other than building contracts,
- 21.1 percent for all building construction, including general contractors and operative builders' contracts,
- 32.9 percent for all special trade construction contracts,
- 23.7 percent for professional services contracts,
- 26.0 percent for all other services contracts, and
- 21.1 percent for commodities contracts.

**- - Agency Special Instructions/Additional Requirements - -**

*In accordance with 34 TAC §20.285(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. When a respondent uses this method to demonstrate good faith effort, the respondent must identify the HUBs with which it will subcontract. If using existing contracts with Texas certified HUBs to satisfy this requirement, only the aggregate percentage of the contracts expected to be subcontracted to HUBs with which the respondent **does not** have a **continuous contract\*** in place for **more than five (5) years** shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor relation as recommended by the 2009 Texas Disparity Study.*

The notice must specify at a minimum the contracting agency's name and its point of contact for the contract, the contract award number, the subcontracting opportunity they (the subcontractor) will perform, the approximate dollar value of the subcontracting opportunity and the expected percentage of the total contract that the subcontracting opportunity represents. - The respondent must, upon request, allow the contracting agency to perform on-site reviews of the company's headquarters and/or work-site where services are being performed and must provide documentation regarding staffing and other resources.

## SECTION B-3: NOTIFICATION OF SUBCONTRACTING OPPORTUNITY

When completing this section you MUST comply with items a, b, c and d, thereby demonstrating your Good Faith Effort of having notified Texas certified HUBs and trade organizations or development centers about the subcontracting opportunity you listed in SECTION B-1. Your notice should include the scope of work, information regarding the location to review plans and specifications, bonding and insurance requirements, required qualifications, and identify a contact person. When sending notice of your subcontracting opportunity, you are encouraged to use the attached HUB Subcontracting Opportunity Notice form, which is also available online at <https://www.comptroller.texas.gov/purchasing/docs/hub-forms/HUBSubcontractingOpportunityNotificationForm.pdf>.

Retain supporting documentation (i.e., certified letter, fax, e-mail) demonstrating evidence of your good faith effort to notify the Texas certified HUBs and trade organizations or development centers. Also, be mindful that a working day is considered a normal business day of a state agency, not including weekends, federal or state holidays, or days the agency is declared closed by its executive officer. The initial day the subcontracting opportunity notice is sent/provided to the HUBs and to the trade organizations or development centers is considered to be "day zero" and does not count as one of the seven (7) working days.

- a. Provide written notification of the subcontracting opportunity you listed in SECTION B-1, to three (3) or more Texas certified HUBs. Unless the contracting agency specified a different time period, you must allow the HUBs at least seven (7) working days to respond to the notice prior to you submitting your bid response to the contracting agency. When searching for Texas certified HUBs and verifying their HUB status, ensure that you use the State of Texas' Centralized Master Bidders List (CMBL) - Historically Underutilized Business (HUB) Directory Search located at <http://mycpa.cpa.state.tx.us/tpasscmb/search/index.jsp>. HUB status code "A" signifies that the company is a Texas certified HUB.
- b. List the three (3) Texas certified HUBs you notified regarding the subcontracting opportunity you listed in SECTION B-1. Include the company's Texas Vendor Identification (VID) Number, the date you sent notice to that company, and indicate whether it was responsive or non-responsive to your subcontracting opportunity notice.

- c. Provide written notification of the subcontracting opportunity you listed in SECTION B-1 to two (2) or more trade organizations or development centers in Texas to assist in identifying potential HUBs by disseminating the subcontracting opportunity to their members/participants. Unless the contracting agency specified a different time period, you must provide your subcontracting opportunity notice to trade organizations or development centers at least seven (7) working days prior to submitting your bid response to the contracting agency. A list of trade organizations and development centers that have expressed an interest in receiving notices of subcontracting opportunities is available on the Statewide HUB Program's webpage at <https://www.comptroller.texas.gov/purchasing/vendor/hub/resources.php>.

- d. List two (2) trade organizations or development centers you notified regarding the subcontracting opportunity you listed in SECTION B-1. Include the date when you sent notice to it and indicate if it accepted or rejected your notice.

The notice must specify at a minimum the contracting agency's name and its point of contact for the contract, the contract award number, the subcontracting opportunity it (the subcontractor) will perform, the approximate dollar value of the subcontracting opportunity and the expected percentage of the total contract that the subcontracting opportunity represents. A copy of the notice required by this section must also be provided to the contracting agency's point of contact for the contract no later than ten (10) working days after the contract is awarded.

# HUB Subcontracting Opportunity Notification Form

In accordance with Texas Gov't Code, Chapter 2161, each state agency that considers entering into a contract with an expected value of \$100,000 or more shall, before the agency solicits bids, proposals, offers, or other applicable expressions of interest, determine whether subcontracting opportunities are probable under the contract. The state agency I have identified below in **Section B** has determined that subcontracting opportunities are probable under the requisition to which my company will be responding.

34 Texas Administrative Code, §20.285 requires all respondents (prime contractors) bidding on the contract to provide notice of each of their subcontracting opportunities to at least three (3) Texas certified HUBs (who work within the respective industry applicable to the subcontracting opportunity), and allow the HUBs at least seven (7) working days to respond to the notice prior to the respondent submitting its bid response to the contracting agency. In addition, at least seven (7) working days prior to submitting its bid response to the contracting agency, the respondent must provide notice of each of its subcontracting opportunities to two (2) or more trade organizations or development centers (in Texas) that serves members of groups (i.e., Asian Pacific American, Black American, Hispanic American, Native American, Woman, Service Disabled Veteran) identified in Texas Administrative Code §20.282(19)(C).

We respectfully request that vendors interested in bidding on the subcontracting opportunity scope of work identified in **Section C, Item 2**, reply no later than the date and time identified in **Section C, Item 1**. Submit your response to the point-of-contact referenced in **Section A**.
