- ◆ Must be able to work flexible hours during a legislative session and as needed.
- ◆ Must be able to take call on a rotating basis nights and weekends.

JOB SUMMARY:

Performs complex controls system analyses for heating, ventilation, and air conditioning for the Building Automation Systems managed by the Texas Facilities Commission (TFC). Work involves planning, developing, and implementing HVAC and laboratory control systems including installation, repair, maintenance, and service of the equipment and control components. Will work with other trades to ensure control of all HVAC equipment that is controlled and monitored by the Building Automation Systems. Completes timekeeping and use work order system for completing tasks. Works under general supervision with considerable latitude for the use of initiative and independent judgment.

ESSENTIAL FUNCTIONS:

- Installs, maintains, and inspects actuators, transducers, temperature sensors, field controllers, and various building automation equipment.
- Utilizes Johnson Controls Metasys systems, Siemens Apogee, Siemens Desigo, Trane Ensemble, and Tridium Niagara software and hardware.
- Repairs and replaces control hardware such as digital controller panels, application-specific controllers, temperature and pressure sensors, transducers, transmitters, relays, motor starters and electronic and pneumatic actuators.
- Loads and configures various control software applications and device drivers, designs, and edits user interface.
- Diagnose, repair, or replace defective field devices or component; and tests devices function to verify that it is operational.
- May assist other technicians in recommissioning building automation systems for control of HVAC equipment.
- Orders parts and material to complete projects and work orders.
- Provides professional responses to building tenants, clients, and staff as necessary.
- Works with other trades to resolve problems with the control system and associated equipment.
- Maintains, records, and prepares reports on repairs and service.
- Operates a state motor vehicle to perform some essential functions.
- Possesses familiarity with office building HVAC equipment.
- Provides professional responses to building tenants, clients, and staff as necessary.
- Performs related work assigned.

Texas Facilities Commission Employment Opportunities

MINIMUM QUALIFICATIONS:

- Major coursework/training in a mechanical field related to HVAC controls and air conditioning, or related field.
- Four (4) years' experience in building automation systems, including training, experience, and certification with Johnson Controls, Siemens Trane, Allerton, and Tridium systems.
- Education and experience may be substituted for one another on a year for year basis.
- Certifications with Siemens, Johnson Controls, and Trane software/hardware would be preferred
- Valid State of Texas Class "C" driver's license.

KNOWLEDGE, SKILLS & ABILITIES:

- Working knowledge of building systems to include steam heating, air handling equipment, electrical systems, and refrigeration equipment.
- Knowledge of laboratory exhaust systems such as fume hoods and bio-safety cabinets.
- Knowledge of Johnson Controls, Siemens, Trane, and Tridium software and hardware.
- Skill in the use of multimeters, amp meters, current loop simulators, and air flow measuring devices.
- Skill in the use of personal computer and applicable programs, software, and applications.
- Skill in the assessment of pneumatic and DDC dampers, actuators, and other control devices.
- Ability to exercise caution and prevent hazards; and safely operate hand and power tools.
- Ability to estimate materials and labor on control installation projects.
- Ability to complete daily paperwork and route appropriately; and to maintain records.
- Ability to communicate effectively, both orally and in writing.
- Ability to operate a motor vehicle.
- Ability to train others.

Physical Requirements and/or Working Conditions:

This position requires the ability to stoop, bend, lift, and stand for prolonged periods of time. Must be able to move 50 lbs. and materials with assistance of equipment or others. Must be able to work outdoors and in various weather conditions. Must be able to navigate uneven terrain and at various heights using ladders and lifts.
